Admission Information

If your student currently receives accommodations or you have documentation to support the need for extended time on the High School Placement Test, please submit the formal assessment by December 10 to the attention of Audrey Sillers, SAS Coordinator.

Professional Evaluation

Students in the Saints and Scholars Program are requested to submit a psycho-educational report containing a diagnostic statement that identifies a specific learning disability. The professional who evaluates the student's eligibility and performs the testing must be licensed and/or certified in the field of learning disabilities. In cases of ADHD or other medical issues that impact education, an annual note from the treating physician is required for the school file.

Required Tests

Each student's diagnostic report must include at least one aptitude test and one full-achievement test battery.
